Leadership Succession

Frank Braeken joined the board as a Non-Executive Director on July 27, 2018, as the second nominee of the CDC Group.

Commenting on the results, Chairman Dr. Jacob Mwanza, said:

The macro-economic climate is anticipated to be more challenging for Zambia in 2019, including high national debt levels and an increasingly volatile Kwacha exchange rate, which could impact on the growth of the Zambian economy.

Despite these macro concerns, the new financial year has started well for Zambeef with continued revenue, margin and volume growth. The Group expects to continue to grow US\$ earnings in 2019, and generate positive free cash in the financial year. It remains committed to employing EBITDA to fund working capital, capital expenditure for the financially viable projects, and to service debt and, as a result, the Group does not intend to raise further debt in the near future. In line with its stated strategic objectives, it plans to continue to reduce its debt levels in the medium term, which will help mitigate foreign exchange and interest rate risk.

In conclusion, I wish to thank all Management and Staff in the Group for their on-going commitment and professionalism during what has been another challenging year. Their contribution, at every level, is greatly appreciated, and helps make Zambeef one of the pre-eminent Zambian companies.

I would also like to thank my Board colleagues for their wisdom and guidance, and look forward to working with them in the coming year.
