Chapter 1: Introductory to the Corporate Governance Practices of the Company

1. Introduction

- 1.1 Companies listed on the main market of the Exchange are required to comply with the UK Corporate Governance Code.
- 1.2 The UK Corporate Governance Code does not apply to companies floated on AIM. However, for the purposes of being listed on AIM, the Company has agreed to maintain appropriate standards of corporate governance.
- 1.3 In the UK, the UK Corporate Governance Code represents the 'gold standard'. However, the UK Corporate Governance Code was not specifically designed for smaller companies. Adherence to the full UK Corporate Governance Code is often inappropriate for smaller companies. In the past, in the absence of an alternative code, many AIM companies have adopted the UK Corporate Governance Code "to the extent applicable having regard to the size and resources of the company".
- 1.4 In 2013, the Quoted Companies Alliance (QCA) published the QCA Code. According to the QCA, the QCA Code has been devised in consultation with a number of significant institutional smaller company investors.
- 1.5 In view of the current size and scale of operations of the Company, the Company has used the QCA Code and the earlier QCA guidelines as the base corporate governance standard. Where appropriate, the Company has also introduced features from the UK Corporate Governance Code.
- 1.6 The Company also must have regard to the provisions contained in the Articles and the Investment Agreement.
- 1.7 The Company's corporate governance practices, as enumerated in this Handbook, may be updated from time to time as necessary. The responsibility for keeping this Handbook updated has been delegated to the office of the Company Secretary. Changes to the Handbook are to be approved by the Board, via its Audit and Risk Committee.

Chapter 2: Share Dealing Policy

1. Introduction

- 1.1. The primary purpose of the obligations imposed upon Directors by the AIM Rules and MAR is to ensure that communication between their Company and the market is maintained on a regular basis to enable a proper assessment of the Company and its securities by shareholders and the public generally. The AIM Rules require that the Company must maintain a share dealing policy. In addition, MAR provides that persons discharging managerial responsibility within the Company do not deal during certain prescribed Close Periods.
- 1.2. Set out in this document is the Company's policy on dealings in securities for the purposes of Rule 21 of the AIM Rules for Companies.
- 1.3. The Policy applies to you if you are a PDMR (as defined below).
 - 1.3.1. If the Policy does apply to you, you must understand that your freedom to deal in securities (including in particular, the Company's securities) is restricted in a number of ways - by English law (for example, the insider dealing provisions of the Criminal Justice Act 1993 ("**CJA**")); European law by virtue of the implementation of MAR; Zambian law by virtue of the Lusaka Securities Exchange Listing Rules; restrictions in a Director's service agreement; and also by this Policy. A brief summary of the provisions of the CJA and MAR are set out in Annex A to this Policy.
 - 1.3.2. You must take care before any form of dealing in the Securities of the Company and, where appropriate, consult a solicitor or lawyer. For example, a dealing which may fall outside this Policy might still constitute an offence under insider dealing or market abuse legislation.
 - 1.3.3. This document addresses the share dealing restrictions set out in the MAR alone. Its purpose is to ensure that PDMRs and Persons Closely Associated with them do not abuse, or place themselves under suspicion of abusing, unpublished price-sensitive information that they may have or be thought to have, especially in periods leading up to an announcement of results.
 - 1.3.4. The preceding introduction and the paragraph headings in this document, do not form part of the Policy, are for guidance and ease of reference only and are not to be construed as affecting the substance or interpretation of the Policy.

2. Restrictions on Dealings by PDMRs

- 2.1 Subject to paragraph 3, a PDMR may not Deal in any Securities, on his or her own account or for the account of a third party, directly or indirectly, during:
 - (a) a Close Period; or
 - (b) at any time when he or she is in possession of Inside Information; or
 - (c) otherwise where clearance to Deal is not given under paragraph 2 of this Policy.
- 2.2 Paragraph 2.4 of Annex A to this Policy contains non-exhaustive guidance on the type of information which is usually to be regarded as Inside Information.
- 2.3 A PDMR must (so far as is consistent with his or her duties of confidentiality to the Company) seek to prohibit any Dealings in Securities during a Close Period or at a time when he or she is in possession of Inside Information by an investment manager with whom such PDMR has funds under management (whether or not discretionary).

2.4 A PDMR must not Deal in any Securities on considerations of a short term nature (for example, in order to make a quick profit). An investment with a maturity of one year or less will always be considered to be an investment of a short term nature.

3. Clearance to Deal

3.1 A PDMR must not Deal, and must procure that Persons Closely Associated do not Deal, in any Securities without first notifying the Designated Director and receiving clearance to Deal from him or her.

3.2 The form of the application to Deal is set out in Annex B and should be used for the purpose of receiving clearance to Deal.

3.3 A response to a request for clearance to Deal must be given to the relevant PDMR in the form set out in Annex B within five Business Days of the request being made. The form of such response is set out at Annex C.

3.4 The Company must maintain a record of the response to any Dealing request made by a PDMR and of any clearance given. A copy of the response and clearance (if any) must be given to the PDMR concerned.

3.5 A PDMR who is given clearance to Deal, or his or her Person Closely Associated, must Deal as soon as possible and in any event within two Business Days of clearance being received.

3.6 The PDMR must notify the Designated Director of the Dealing within 24 hours of the Dealing using the share dealing notification form in Annex D. Failure to do so constitutes a breach of the Policy.

3.7 The Board will, from time to time, appoint and remove the Designated Director(s). At any time, there will be at least one Designated Director. The Company Secretary keeps a list of current Designated Director(s), which is available on request.

3.8 A Designated Director wishing to Deal in Securities must notify the other Designated Director(s) (or, if no other Designated Director has been appointed, the Chairman and receive clearance before proceeding.

3.9 If for whatever reason the Designated Director appointed is not independent for a particular clearance request, provision will be made for an alternate Designated Director (or, if no other Designated Director has been appointed, the Chairman) to deal with the request.

4. Dealings Permitted During a Close Period

4.1 Dealing in exceptional circumstances - extremely urgent, unforeseen and compelling reasons:

(a) A PDMR, who is not in possession of Inside Information in relation to the Company, may be given clearance to Deal in some exceptional circumstances. Clearance may be given for such a person to immediately sell (but not purchase) Securities when he/she would otherwise be prohibited by this Policy from doing so.

(b) Circumstances will be considered exceptional, when they are extremely urgent, unforeseen and compelling and where their cause is external to the PDMR and the PDMR has no control over them.

(c) When examining whether the circumstances described in the written request are exceptional, the Designated Director(s) will take into account, among other indicators, whether and to the extent to which the PDMR:

- (i) is at the moment of submitting its request facing a legally enforceable financial commitment or claim; and
- (ii) has to fulfil, or is in a situation entered into, before the beginning of the Close Period, requiring the payment of sums to a third party (including tax liability) and cannot reasonably satisfy a financial commitment or claim by means other than immediate sale of Securities.

4.2 Dealing in exceptional circumstances - employee schemes and other Dealings

The Designated Director may also give clearance for a PDMR to Deal in the following instances:

- (a) where the PDMR has been awarded or granted Securities under an employee scheme, provided that the following conditions are met:
 - (i) the employee scheme and its terms have been previously approved by the Company in accordance with national law and the terms of the employee scheme specify the timing of the award or the grant and the amount of the Securities awarded or granted, or the basis on which such an amount is calculated and given that no discretion can be exercised; and
 - (ii) the PDMR does not have any discretion as to the acceptance of the awarded or granted.
- (b) where the PDMR has been awarded or granted Securities under an employee scheme that takes place in the Close Period, provided that:
 - (i) a pre-planned and organised approach is followed regarding the conditions, the periodicity, the time of the award, the group of entitled persons to whom the Securities are granted; and
 - (ii) the amount of the Securities to be awarded, the award or grant of the Securities takes place under a defined framework under which any Inside Information cannot influence the award or grant of the Securities.
- (c) where the PDMR exercises options or warrants or conversion of convertible bonds assigned to him under an employee scheme when the expiration date of such options, warrants or convertible bonds falls within a Close Period, as well as sales of the Securities acquired pursuant to such exercise or conversion, provided that all of the following conditions are met:
 - (i) the PDMR notifies the Directors of its choice to exercise or convert at least four months before the expiration date;
 - (ii) the decision of the PDMR is irrevocable; and
 - (iii) the PDMR has received the authorisation from the Directors prior to proceed.
- (d) where the PDMR acquires the Securities under an employee saving scheme, provided that all of the following conditions are met:
 - (i) the PDMR has entered into the scheme before the Close Period, except when it cannot enter into the scheme at another time due to the date of commencement of employment;

- (ii) the PDMR does not alter the conditions of his/her participation into the scheme or cancel his/her participation into the scheme during the Close Period; and
 - (iii) the purchase operations are clearly organised under the scheme terms and that the PDMR has no right or legal possibility to alter them during the Close Period, or are planned under the scheme to intervene at a fixed date which falls in the Close Period.
- (e) where the PDMR transfers or receives, directly or indirectly, Securities, provided that:
- (i) the Securities are transferred between two accounts of the PDMR; and
 - (ii) such a transfer does not result in a change in price of the Securities.
- (f) where the PDMR acquires qualification or entitlement to Securities and the final date for such an acquisition, under the Company's statute or by-law falls during the Close Period, provided that:
- (i) the PDMR submits evidence to the Designated Directors of the reasons for the acquisition not taking place at another time; and
 - (ii) the Designated Director(s) is satisfied with the provided explanation.

5. Dealings by Persons Closely Associated

5.1 A PDMR must seek to prohibit by or on behalf of Persons Closely Associated to the PDMR any Dealings on considerations of a short-term nature and in the Securities during a Close Period, when in possession of Inside Information and otherwise when clearance is not given to a Dealing pursuant to paragraph 2 of this policy. This would include Dealings by investment managers on behalf of the PDMR or on behalf of Persons Closely Associated with that PDMR.

5.2 A PDMR must advise all Persons Closely Associated with them:

- (a) of the name of the Company;
- (b) of the Close Periods during which they cannot Deal in the Securities;
- (c) of any other periods when the PDMR knows he/she is not him/herself free to Deal in Securities under the provisions of the Policy unless his/her duty of confidentiality to the Company prohibits him/her from disclosing such periods; and
- (d) that they must advise him/her and the Company immediately after they have Dealt in Securities.

5.3 PDMRs must provide the Company with a list of his or her Persons Closely Associated and notify the Company of any changes that need to be made to that list.

6. Notification of Transactions

6.1 PDMRs must notify:

- (a) the FCA; and
- (b) the Designated Director,

in writing of all Dealings by themselves and Persons Closely Associated in the Securities as soon as practicable following the Dealing (and in any event no later than three Business Days thereafter). Such notification shall be made in the form set out at Annex D and, in the case of the FCA, submitted using their online form by PDMRs and Persons Closely Associated.

6.2 The Company will then notify a Regulatory Information Service without delay following receipt by the Company of the notification disclosing as far as possible the information specified by that notification. This will result in the transaction becoming publicly available information.

7. Breach of the Policy

7.1. A breach of the provisions of this Policy by any person subject to it will be deemed to be a breach of that person's employment contract or letter of appointment with the Company.

8. Additional Rules imposed by the Lusaka Securities Exchange

8.1 The LuSE Listing Rules require the Company via its sponsoring broker to announce the following information:

- (a) details of all transactions (including off market transactions) in securities relating to the Company by or on behalf of:
 - (i) a Director and Company Secretary (held directly, indirectly or beneficially) of the Company;
 - (ii) a Director and Company Secretary (held directly, indirectly or beneficially) of a major subsidiary company of the Company;
 - (iii) any associate of (a)(i) or (ii) above; or

Annex A

Summary of the provisions of the CJA and MAR

In addition to the rules set out in this Policy and in relation to the Company's AIM Listing, there are two principal pieces of legislation that PDMRs must be aware of when Dealing in both the Securities of the Company and securities in general. The CJA contains a criminal offence of insider dealing and MAR covers market abuse. A brief summary of these two pieces of legislation is set out below.

1. Insider Dealing

1.1 In broad terms, there are three criminal insider dealing offences:

- (a) dealing when in possession of inside information ("dealing");
- (b) encouraging another person to deal when in possession of inside information ("encouraging"); and
- (c) disclosing inside information otherwise than in the proper performance of the functions of the job ("disclosing").

1.2 Inside information is information which (a) is not public, (b) relates to the securities in a company, and (c) if it were publicly known would have a significant effect on the price of the shares/securities of that company. This may include information about the Company but it may also include confidential information regarding the intentions or prospects of someone the Company deals with or a competitor of the Company.

1.3 To commit the offence of insider dealing, the individual must know that the information is inside information and/or that it has been obtained from an inside source.

1.4 To commit the "dealing" offence one has to "deal" using inside information. This effectively means acquiring or disposing of shares or other securities or agreeing to acquire or dispose of them. The offence applies to shares as well as options, futures, warrants and other instruments related to the price of shares. A person also deals if they procure someone to deal for them.

1.5 To commit the "encouraging" offence, a person has to encourage someone else to "deal" using inside information. That person does not have to deal but the person encouraging them has to know or have reasonable cause to believe they would deal to commit the offence.

1.6 To commit the "disclosing" offence, a person has to disclose inside information otherwise than in proper performance of his employment, office or profession.

2. Market Abuse

a) Market abuse is designed to catch any behaviour which is damaging to the markets (this means most stock exchanges as well certain other markets). Market abuse, in essence, is market manipulation or information abuse. You should be aware that market abuse may be committed during "grey market" trading, that is once an application for the Company's securities to be admitted to trading has been made.

2.1 Insider Dealing under MAR and unlawful disclosure of Inside Information

2.1.1 Article 14 of MAR prohibits insider dealing and unlawful disclosure of Inside Information.

2.1.2 The prohibitions apply to anyone who holds Inside Information as a result of being a Director or shareholder, having access to the information through their employment, profession or duties or being involved in criminal activities. They also apply where the person knows or ought to know that the information is Inside Information.

2.1.3 Insider dealing arises where a person possesses Inside Information and uses it by acquiring or disposing of, either directly or indirectly, financial instruments to which the information relates, whether on his own account or for another person. Where someone has placed an order before obtaining Inside Information, cancelling or amending the order using that information will also amount to insider dealing.

2.1.4 Recommending or inducing another person to engage in insider dealing is also prohibited.

2.1.5 A person in possession of Inside Information must not disclose it to any other person, except where the disclosure is made in the normal exercise of an employment, profession or duties.

2.1.6 Passing on recommendations or inducements to engage in insider dealing, knowing the recommendation or inducement was based on Inside Information, is also prohibited.

2.1.7 There are specific rules governing the conduct of market soundings: that is, communications of information, prior to the announcement of a transaction, in order to gauge the interest of possible investors.

2.2 Market manipulation

2.2.1 Article 15 of MAR prohibits market manipulation and attempted market manipulation. Market manipulation can be committed in a number of ways, including those described below.

2.2.2 A person may not enter into a transaction, place an order to trade or carry out any other behaviour that (other than for legitimate reasons and in conformity with accepted market practices on AIM accepted by the FCA):

- (a) gives, or is likely to give, false or misleading signals as to the supply of, demand for, or price of the AIM Company's shares; or
- (b) secures, or is likely to secure, the price of the AIM Company's shares at an abnormal or artificial level.

2.2.3 A person may not enter into a transaction, place an order to trade or carry out any other activity or behaviour which affects or is likely to affect the price of the AIM Company's shares, which employs a fictitious device or any other form of deception or contrivance.

2.2.4 A person may not disseminate information through the media, including the internet, or by any other means, which gives, or is likely to give, false or misleading signals as to the supply of, demand for, or price of the AIM Company's shares or secures, or is likely to secure, the price of the AIM Company's shares at an abnormal or artificial level, including the dissemination of rumours, where the person who made the dissemination knew, or ought to have known, that the information was false or misleading.

2.3 Safe harbours

2.3.1 There are exemptions from the prohibitions on insider dealing, unlawful disclosure and market manipulation for buy-back programmes and stabilisation measures where certain conditions are met.

2.3.2 In the context of public takeovers and mergers, it will not be deemed, from the mere fact that a person is in possession of Inside Information, that he/she has used that information and has thereby engaged in insider Dealing, where he/she has obtained the Inside Information in the conduct of a takeover or merger and uses it solely for the purpose of proceeding with the takeover or merger, provided that at the point of acceptance of the takeover or approval of the merger any Inside Information has been made public or otherwise ceased to be Inside Information. This does not, however, apply to stakebuilding.

2.4 Non-exhaustive, indicative list of events that might constitute inside information.

Chapter 3: Disclosure Policy

1. Introduction

- 1.1 This note sets out the key internal procedures, systems and controls of the Group to ensure that the Group complies with its obligations relating to inside information under the MAR and the AIM Rules (together, the “**Rules**”).
- 1.2 This note outlines the procedures:
- (a) to restrict access to inside information to those who need to know it;
 - (b) for disclosing inside information to the market as and when required; and
 - (c) to identify inside information.
- 1.3 This policy applies to all the Company’s Directors and employees and to all other Group companies, their Directors and employees. It is very important that the requirements of the Rules are strictly complied with and the policies and procedures set in this note are designed to achieve that. If the Company or an individual breaches the Rules, the FCA may impose sanctions on the Company and its Directors. These could include financial penalties or public censure. If you do not follow the procedures you may also commit a criminal offence.
- 1.4 If you have any queries on this note or on the policies and procedures, you should contact the Company Secretary.

2. The Company’s obligations

- 2.1 Pursuant to the Rules, the Company must:
- (a) inform the public as soon as possible of inside information (explained further below) which directly concerns the Company, except in certain very limited circumstances that justify a delay in making that disclosure;
 - (b) not disclose inside information selectively, except in very limited circumstances, or leak inside information; and
 - (c) restrict access to inside information to those who need to access it within the Group.
- 2.2 Where the Company has delayed the disclosure of inside information, it must:
- (a) keep an internal record of specified information;
 - (b) as soon as it announces the information following the period of delay, inform the FCA that there was a delay in disclosure; and
 - (c) if requested by the FCA, provide the FCA with a written explanation of how the conditions for delay were met.
- 2.3 The Group must also have procedures:
- (a) to identify information that may be inside information;
 - (b) to report potential inside information promptly so a decision can be taken about whether an announcement is needed; and

(c) to make sure any announcements are correct and complete.

2.4 These requirements come from the MAR and the AIM Rules for Companies which apply to the Company.

3. Identifying inside information

3.1 Inside information is information:

- (a) of a precise nature;
- (b) which has not been made public;
- (c) that relates, directly or indirectly, to the Company or to one or more financial instruments (this would include information about the Group); and
- (d) which, if it were made public, would be likely to have a significant effect on the prices of those financial instruments (eg the Company's share price or the price of its bonds) or on the price of related derivative financial instruments (i.e. ones the price or value of which depends on, or is affected by, the price or value of the shares or other financial instruments).

3.2 Information is precise if it:

- (a) indicates a set of circumstances which exists or which may reasonably be expected to come into existence, or an event which has occurred or which may reasonably be expected to occur; and
- (b) is specific enough to enable a conclusion to be drawn as to the possible effect of that set of circumstances or event on the Company's share price (or the price of other financial instruments or related derivative financial instruments).

3.3 Significant effect on price

- (a) The information must be likely to have a significant effect on the price of the relevant investment. Information which may have a 'non-trivial' effect on price should be considered 'significant' for these purposes. Information should be considered to be 'likely' to have a significant effect on price if there is a more than fanciful prospect of the information having such an effect. It is not necessary for a potential future event to be more likely than not to happen to meet this test.
- (b) If there is doubt about whether information constitutes inside information, the Company is expected to take advice from its broker or other advisers.

3.4 Permitted selective disclosure

3.4.1. The Rules permit selective disclosure of inside information in limited circumstances to certain categories of persons, outside those in the Company who need to know it. FCA guidance suggests that these categories of recipient may include (but are not limited to):

- (a) the Company's advisers and advisers of any other persons involved in the matter in question;

- (b) persons with whom the Company is negotiating, or intends to negotiate, any commercial financial or investment transaction (including prospective underwriters or places of the financial instruments of the Company);
- (c) employee representatives or trade unions acting on their behalf;
- (d) any government department, the Bank of England, the Competition Commission or any other statutory or regulatory body or authority;
- (e) major shareholders of the Company;
- (f) the Company's lenders; and
- (g) credit-rating agencies.

3.4.2. These persons must be obliged to keep the information confidential. You must consult with the Company Secretary before making any such selective disclosure.

3.5 Inadvertent disclosure of inside information

3.5.1. If inside information is inadvertently disclosed or leaked (whether by someone in the Group or someone else), the Audit and Risk Committee should be informed immediately so that an announcement can be made to the market at once and the Company can conduct an enquiry into the leak.

4. Responsibility for disclosure

4.1. The Directors are responsible under the Rules for carefully and continuously monitoring whether changes in the Company's circumstances are such that there is an announcement obligation. To ensure that decisions can be made quickly, the Board has decided to delegate this responsibility to a committee, the Audit and Risk Committee. The Audit and Risk Compliance Committee will:

- (a) approve, and monitor compliance with, the Company's disclosure controls and procedures;
- (b) determine whether information is inside information;
- (c) determine whether inside information is to be announced as soon as possible or whether a delay is justified;
- (d) review the scope, content and accuracy of disclosure;
- (e) review and approve any announcements dealing with significant developments in the Company's business; and
- (f) consider if an announcement is needed if there are rumours about the Company or a leak of inside information and if a holding announcement is needed.

5. Operating procedures in relation to disclosure

The procedures outlined in this section are designed to ensure the timely and accurate disclosure of relevant information to the market.

5.1 Notifying possible inside information

5.1.1.If an event or issue or any other information that may be inside information is identified, it should be notified to the Chairman of the Audit and Risk Committee as soon as possible. The fact that it may not be easy to work out whether the information will have a significant effect on the Company's share price, or that the information is uncertain (eg because events are changing or are unclear, such as a fraud is alleged or legal action is threatened but not yet taken), should not delay this notification. Similarly, for financial information there should not be a delay in providing information on one part of the business which may be material just because another part of the business is not yet available or may be showing a different result. The information should then be passed to the other members of the Audit and Risk Committee promptly and, where appropriate, to the Board.

5.1.2.Any such notification must include sufficient information to enable the Audit and Risk Committee to determine the significance of the event or issue and whether or not an announcement must be made. Where the information provided is uncertain or unclear, as much information as possible should be provided to help the Audit and Risk Committee to reach a view on it and updates should be provided promptly as more information becomes available.

5.1.3.A table of events and their typical treatment is set out below (Page 26 Para 6) to help identify the sort of information to be notified. The table of events only gives examples and is not exhaustive.

5.1.4.The Audit and Risk Committee and, where appropriate, the Board as a whole will decide the appropriate treatment in each case. Each event or issue must be referred to Audit and Risk Committee to ensure that it is managed appropriately.

5.2 Use of external advisers

Where the Audit and Risk Committee is uncertain about the need for an announcement or its timing, the Audit and Risk Committee should seek advice from the Company's AIM Nominated Adviser and, where appropriate, its external legal advisers. A record should be kept of the advice and reasons for the conclusion.

5.3 Drafting the announcement

The Company Secretary will co-ordinate the drafting of any relevant announcement as soon as practicable. The FCA expects there to be minimal delay between inside information being identified and an announcement being made (unless a delay is permissible). Any announcement should be correct and complete. It should give the full story and not omit any material fact or anything likely to affect what is said. A draft of the announcement must be circulated to the Audit and Risk Committee and others involved with the issue or event. This is so that those close to the issue or event can ensure that the announcement is verified to be accurate and not misleading. The AIM and MAR Compliance Committee is responsible for ensuring that this verification process is followed.

5.4 Holding announcements

5.4.1.If the Audit and Risk Committee has decided it can delay disclosure (e.g. where it is negotiating a transaction), it will arrange for the preparation of a holding announcement that can be published at short notice if there is a breach of confidentiality, or a breach is likely. It will also consider arrangements to monitor the market for rumours or leaks and maintain all necessary internal records.

5.4.2.The Audit and Risk Committee will also consider publishing a holding announcement if an event has occurred which is unclear or uncertain (e.g. where a fraud is alleged or legal action against the Company is threatened) and the Audit and Risk Committee decides more time is needed to consider the situation before putting out a further announcement at a later time.

5.4.3. Any holding announcement should detail as much of the subject matter as possible, set out the reasons why a fuller announcement cannot be made and include an undertaking to announce further details as soon as possible.

5.5 Approval and release of the announcement

5.5.1. The Audit and Risk Committee or, where appropriate, the Board will decide upon the final form and release time for all announcements.

5.5.2. The announcement must be released through RIS on AIM or Stock Exchange News Service (SENS) on LuSE. The Company Secretary will be responsible for issuing releases.

5.5.3. If the announcement has to be made outside office hours, it must be distributed as soon as possible to:

- (a) RIS or SENS for release as soon as it opens.

5.5.4. The Company Secretary will be responsible for this process.

5.5.5. If the Company's shares or other instruments are traded on another market, information should be released as far as possible at the same time on all markets.

5.5.6. The approved text will be posted on the Company's website (allowing access free of charge on a non-discriminatory basis) no later than close of the business day following the day of release and will be retained for five years. The inside information must be kept in an easily identifiable section of the website, organised in chronological order with the date and time of disclosure clearly indicated.

5.6 Insider list process

5.6.1. The Company has adopted the policies set out in the 'Memorandum of inside information' on creating and keeping insider lists found at Appendix 6 of this Handbook. Any event or issue the Audit and Risk Committee considers for disclosure purposes will also be reviewed to determine whether the Company needs to create an insider list in relation to the event or issue.

5.6.2. The Company Secretary will be responsible for administering the Company's insider lists following any decision of the Audit and Risk Committee in accordance with the procedures set out in the memorandum of inside information.

5.6.3. At other times the Company may produce lists of those with access to confidential information that does not amount to inside information but that might in due course become side information. The Company Secretary will administer any such list.

6. Analysing whether disclosure is required

6.1. If there is any doubt as to whether information is inside information or an announcement should be made the matter must be referred to the Audit and Risk Committee or the Company Secretary.

6.2. The Company may, under its own responsibility, delay the public disclosure of inside information, provided that:

- (a) legitimate interest: immediate disclosure is likely to prejudice the legitimate interests of the Company;
- (b) not misleading: delay of disclosure is not likely to mislead the public; and

- (c) confidentiality: the Company is able to ensure the confidentiality of that information.
- 6.3. It is essential therefore that appropriate confidentiality agreements are put in place at the start of any important strategic projects that may ultimately involve inside information.
- 6.4. Examples of events that might require announcement (assuming information is inside information):
- (a) Unfounded rumour – no announcement necessary.
 - (b) Largely accurate rumour/leak, e.g. rumour of impending significant transaction or capital raising – either holding announcement or accelerated announcement if possible.
 - (c) Unforeseen circumstance, e.g. major supplier or customer becoming insolvent, a possible significant accounting error or fraud in major subsidiary identified or major legal proceedings threatened against any member of the Group:
 - (d) if information is not ‘precise’ or would not have a significant effect on price - no announcement obligation but the situation should be kept under review;
 - (e) if the information is inside information - an announcement should be made. The requirement to disclose ‘as soon as possible’ allows a short delay to assess the effect of the information on the share price. In these circumstances, a holding announcement should be prepared.
- 6.5. As noted above, where a decision to delay disclosure is made the Company is required to keep a detailed record of this decision, including the date and time when the information became inside information and when the decision to delay was made. When the information is published, the Company must notify the FCA that there was a delay in disclosure and, if requested by the FCA, the Company must also provide a written explanation of how the relevant conditions allowing delay were satisfied.

7. Dealing with the press, and investors and analysts

- a) Any enquiry from the press or from any analyst or investor seeking disclosure of any information about the Company or the Group should be directed to The Chief Executive Officer (CEO). Insiders who confirm information put to them by a journalist may commit market abuse by disclosing inside information – even if the information was sourced from somewhere else first. If it seems that inside information has been leaked to a journalist (whether from the Group or elsewhere), the CEO should be informed immediately.
- b) The Company needs to be careful in dealing with enquiries in respect of market rumours. Although there is no regulatory obligation to deny a false rumour, if the Company wants to make a denial it should make an announcement via an RIS or SENS, not through any other route. The Company can provide unpublished information to third parties only if it is not inside information. If the information is inside information, it can only be provided if this is permitted by the Rules (see ‘Permitted Selective Disclosure’ above).

7.1 Dealing with the press

- 7.1.1. Only the Head of Corporate Affairs is authorised to have any communications with the press during any project or transaction involving inside information and must keep a contemporaneous note of any such communication with details of the time, date and length of the communication, those involved and what was discussed. Copies of any emails should also be kept.

7.2 Dealing with analysts

7.2.1. When dealing with analysts, the Company:

- (a) should be careful to avoid inadvertently divulging any inside information, including where cumulative disclosure could amount to inside information;
- (b) may, in addition to providing non-public information that is not inside information, draw public information to analysts' attention, explain information that is in the public domain and discuss markets in which the Company operates, but should avoid correcting the analysts' conclusions;
- (c) generally need not correct errors in analysts' published reports, although if, as a result of serious and significant error, there is a widespread and serious misapprehension in the market, the Audit and Risk Committee should consider whether the Company should publish inside information to correct the error; and
- (d) should keep a contemporaneous note of meetings with analysts and, as far as reasonably practicable, ensure that at least two Company representatives are present.

7.2.2. If inside information is inadvertently disclosed, the CEO or the Audit and Risk Committee should be informed immediately so that an announcement can be made to the market, generally at once.

8. Compliance

- 8.1. Compliance with this policy is important. All Directors and employees are therefore required to comply with the procedures set out in this document as relevant and to advise the Company Secretary immediately of any breaches of this policy. If you have any concerns that something may be inside information you should not hesitate to contact the Company Secretary immediately but do not tell him/her what the potential piece of inside information is until asked by him/her.

Chapter 4: AIM Rules Compliance Policy

1. Introduction

- 1.1 This document sets out the policy of the Company on compliance with the AIM Rules issued by the Exchange. The policy applies whilst the Company is quoted on AIM.
- 1.2 The Directors are responsible for ensuring compliance by the Company with its obligations under the AIM Rules from the date of its shares being admitted to trading on AIM, Rule 31 states: "An AIM Company must ensure that each of the Directors accept full responsibility, collectively and individually, for its compliance with the AIM Rules". Sections 3 to 8 of this compliance policy summarise the principal obligations to be observed by the Company. These obligations are contained in the AIM Rules. References to the Rules, or any particular Rule in these sections are references to the AIM Rules or the specific rule of the AIM Rules.
- 1.3 In particular, compliance with the obligations relating to disclosure is regarded by the Exchange as essential to the maintenance of an orderly market in securities and ensures that all users of the market have simultaneous access to the same information.
- 1.3.1 Failure by the Company to comply with the AIM Rules may result in the Exchange taking one or more courses of action. These include issuing a warning notice, fining or censuring the Company and suspending trading in or cancelling the admission of the Company's securities. In each case it is open to the Exchange to publish the fact of the measures taken against the Company.
- 1.3.2 The Exchange may from time to time amend the AIM Rules and the Company will be expected to comply with any such amendments.
- 1.3.3 In addition to the AIM Rules the Company and its Directors should be aware of the AIM Rules for Nominated Advisors (the "Nomad Rules"), setting out the responsibilities and obligations of the Company's Nomad, and the AIM Disciplinary Procedures and Appeals Handbook, each of which are appended hereto.

2. Principles

- 2.1 The Company will comply at all times with the AIM Rules, will maintain in place sufficient procedures, resources and controls to ensure compliance, and will seek advice from its Nominated Adviser ("**Nomad**") in this regard, and where appropriate act upon such advice.
- 2.1.1 The Board will seek advice and guidance without delay from its Nomad at all times and without delay in relation to any announcement that the Company may be required to make under the AIM Rules.
- 2.1.2 The Company is required to provide to the Nomad such information as the Nomad may reasonably request or require to enable it to carry out its responsibilities under the AIM Rules and the Nomad Rules. Specifically the Company must inform the Nomad in advance of any proposed change to the Board of Directors.
- 2.1.3 The Board will promptly inform the Nomad in respect of any new developments which are not public knowledge concerning a change in (i) the Company's financial condition; (ii) the Company's sphere of activity, (iii) the performance of the Company's business; or (iv) the expectation of the Company's performance.
- 2.1.4 The Board will supply any information requested by the Nomad without delay.
- 2.1.5 The Nomad will be able to contact at least one nominated member of the Board at any time.

- 2.1.6 The Board will ensure that all the Board Meetings and Shareholders Meetings are properly and accurately minuted. If required, minutes of the meetings will be provided to the Nomad and the Exchange.

3. General Obligation to Disclose Price Sensitive Information (AIM Rules 10 & 11)

- 3.1 The Company is under a general duty to notify a Regulatory Information Service ("**RIS**") provider (usually undertaken by the Company's Nomad or PR adviser) which is approved by the Exchange and authorised for the purposes by the Financial Services Authority of the UK without delay of any new developments which are not public knowledge and which concern a change in its financial condition, its sphere of activity, the performance of its business or its expectation of its performance and which would, if made public, be likely to lead to a substantial movement in the price of any of its securities. This general duty underlies many of the more specific obligations to make announcements set out in the AIM Rules, but the general requirements are additional to this and may be invoked where none of the specific obligations is relevant.
- 3.2 The Directors must ensure that relevant information is announced to the market as a whole through an RIS provider without delay. The general disclosure obligation is set out in full in rule 11 of the AIM Rules.
- 3.3 The Directors must also make more routine announcements (some of which are contained in more specific obligations in the AIM Rules (see the summary in paragraph 4 below)).
- 3.4 Any announcement must not be misleading, false or deceptive and must not omit anything likely to affect the import of such information and must be notified to an RIS provider no later than it is published elsewhere (Rule 10). However, care should be taken to avoid making a premature announcement when the whole picture cannot be revealed which might result in the market being misled. Every circumstance must be judged on its merits and early consultation with the Nomad is essential.
- 3.5 In any event, before the Company discloses any information to analysts, it must first discuss the proposed disclosure with its Nomad.

4. Routine Obligations to Disclose (AIM Rule 17)

AIM Rule 17 sets out a number of requirements which oblige companies to notify the market on the happening of certain events, and each Director shall ensure that that he discloses to the Company all information of which he is aware and is required to be disclosed pursuant to Rule 17. This includes any change to the following information:

- 4.1 any unspent convictions in relation to indictable offences;
- 4.2 details of any bankruptcies or individual voluntary arrangements;
- 4.3 details of any receiverships, compulsory liquidations, creditors' voluntary liquidations, administrations, company voluntary arrangements or any composition or arrangement with its creditors generally or any class of its creditors of any company where the Director was a director at the time of or within the twelve months preceding such events;
- 4.4 details of any compulsory liquidations, administrations or partnership voluntary arrangements of any partnerships where the Director was a partner at the time of or within the twelve months preceding such events;
- 4.5 details of receiverships of any asset of such Director or of a partnership of which the Director was a partner at the time of or within the twelve months preceding such events; and

4.6 details of any public criticisms of such Director by statutory or regulatory authorities (including recognised professional bodies), and whether the Director has ever been disqualified by a court from acting as a director of a company or from acting in the management or conduct of the affairs of any company.

4.7 Change in adviser and/or broker

4.7.1 The Company must notify an RIS provider without delay of the resignation, dismissal or appointment of the Nominated Adviser or broker.

4.8 Notification of changes in shareholdings

4.8.1 The Company must notify an RIS provider without delay of any relevant changes to any shareholdings of significant shareholders (being persons holding 3 per cent or more of a class of quoted securities in the Company) and of any dealings by Directors in the securities of the Company. Such notification should include the information specified in Schedule 5 of the AIM Rules.

4.8.2 The Company must require each Director to disclose such information to it without delay insofar as that information is known to the Director or could with reasonable diligence be ascertained by the Director. A RIS provider must be notified “without delay” after receipt by the Company of such information. It is generally accepted that “without delay” requires an RIS provider to be notified as soon as possible and in any event prior to the close of the business day following the day on which information was known or should have been known.

4.9 Board changes

4.9.1 The Company should notify the Nomad of the intention to appoint a Director without delay, allowing sufficient time for appropriate due diligence procedures to be carried out and required disclosure under the AIM Rules to be agreed, prior to the appointment being made.

4.9.2 The Company must notify a RIS provider without delay of the resignation, dismissal or appointment of any Director.

4.9.3 Such notification must include the date of such occurrence and for an appointment, must include the information on any new Director set out in Schedule 2(g) of the AIM Rules, relating to all directorships held by that new Director over the previous five years, any unspent convictions, details of bankruptcies, receiverships or any public criticisms of that new Director by any statutory or regulatory authorities (see paragraph (g) of Schedule 2 of the AIM Rules).

4.10 Material changes in performance

4.10.1 The Company must notify an RIS provider without delay of any material change between its actual trading performance or financial condition and any profit forecast, estimate or projection included in an admission document or otherwise made public on its behalf.

4.11 Other disclosures

4.11.1 Other miscellaneous provisions under Rule 17 of the AIM Rules require the Company to notify an RIS provider without delay of such matters as changes in accounting reference dates and reasons for the issue of cancellation of any quoted securities by the Company.

4.11.2 The Company must also notify an RIS provider without delay of any decision to make any payment in respect of its quoted securities (which would include dividends).

5. Reporting and Financial Information

5.1 Half-yearly reports (AIM Rule 18)

The Company must prepare a half-yearly report in respect of the six month period from the end of the financial period for which financial information has been disclosed in an admission document, and at least every subsequent six months thereafter (save for the final period of six months preceding its accounting reference date for its annual audited accounts). These must be notified to an RIS provider (rule 18) without delay and in any event within three months of the end of the relevant period.

5.2 Annual accounts (AIM Rule 19)

The Company must publish its annual audited accounts prepared in accordance with International Financial Reporting Standards. These must be sent to the holders of the Company's securities without delay and in any event not later than six months after the end of the financial period to which they relate.

5.3 Publication of documents sent to shareholders (AIM Rule 20)

Any document provided by the Company to the holders of its quoted securities (including the accounts) must be made available, free of charge, on the Company's website pursuant to Rule 26 (see below) and an electronic copy sent to the Exchange.

6. Substantial Transactions (AIM Rule 12)

6.1 Classification

6.1.1 The AIM Rules classify acquisitions and disposals according to the size of the transaction relative to that of the Company proposing to make it by reference to "percentage ratios". Broadly, the percentage ratios are the figures resulting from a comparison of each of the respective gross assets, profits, turnover, and consideration to market capitalisation of the Company and gross capital. Where any of the percentage ratios equals ten per cent or more, the relevant transaction is deemed a "substantial transaction".

6.1.2 In addition to substantial transactions the concept of "reverse takeover" exists; this is an acquisition or a series of acquisitions in a 12 month period by an AIM quoted company where any percentage ratios of the above is 100 per cent or more or which would result in a fundamental change in the business or in a change in board or voting control of the quoted company.

6.1.3 Transactions of a revenue nature in the ordinary course of business and transactions to raise finance which do not involve a change in the fixed assets of the AIM company are excluded from classification as a substantial transaction. The term "transaction" is not defined and should be interpreted as widely as possible; there may be circumstances where a transaction is classifiable notwithstanding that no "assets" are being acquired or disposed of. Care should be taken, for example, where the Company proposes to give certain indemnities (i.e. ones which are exceptional and under which the Company agrees to discharge any liabilities for costs, expenses, commissions or losses incurred by or on behalf of another party whether or not on a contingent basis and under which the maximum liability is either unlimited in amount or where the liability would equal or exceed ten per cent or more of the Company's profits).

6.2 Aggregation (AIM Rule 16)

Transactions completed during the 12 months prior to the date of the latest transaction and which:

6.1.1. are entered into by the Company with the same person or their families;

6.1.2. involve the acquisition or disposal of securities or an interest in one particular business; or

6.1.3. together lead to a principal involvement in a business activity which did not previously form part of the Company's principal activities

must be aggregated for the purpose of determining whether the latest transaction falls within AIM Rules 12 to 15 and/or 19.

6.3 Obligation to notify

6.3.1. Substantial transactions and reverse takeovers must be notified to an RIS provider without delay after the terms of the transaction are agreed. The requirements as to the contents of such announcement include (Schedule 4 of the AIM Rules):

- (a) particulars of the transaction;
- (b) the consideration;
- (c) the value of the assets which are the subject of the transaction;
- (d) the profits attributable to the assets which are the subject of the transaction; and
- (e) the effect of the transaction on the AIM Company.

6.4 Admission documents and shareholder approval

6.4.1. Any agreement which would effect a reverse takeover must be conditional upon shareholder approval being obtained in general meeting and accompanied by the publication of an Admission Document in respect of the proposed enlarged entity and convening the general meeting.

6.4.2. 7.3. The threshold eliminates certain small transactions but again aggregation may be required.

Chapter 6: Anti-Corruption & Bribery Policy

A. Overview

This document sets out the policy and procedures of the Company on combatting corruption, in accordance with its Group Code of Ethics. It has been reviewed and approved by the Audit Committee of the Board of Directors, as required under their Terms of Reference, and then endorsed by the Board of Directors of Company, and applies to all subsidiaries and global operations. The objective of the policy is to clearly set out the Company's "Zero Tolerance" approach to corruption. The Company subscribes to international best practices to meet this commitment.

1. Legal framework

- 1.1 All employees are required to comply with all applicable anti-bribery and corruption laws and regulations when doing business on behalf of the Company.
- 1.2 Offences of bribery and corruption are covered for private bodies under the Zambia Anti Corruption Act of 2012.
- 1.3 These laws include the United Kingdom Bribery Act 2010. Under the Bribery Act, businesses can potentially face unlimited fines if the company or its representatives are found to have engaged in bribery and corruption. Section seven of the Bribery Act created a new offence of failure of commercial organisations to prevent bribery. The sole defence here is that the business had in place adequate procedures designed to prevent persons associated with company from engaging in corruption. Individuals can also be held personally liable, entailing potential imprisonment and financial penalties.

2. Definitions

- 2.1 In this policy "bribery" is defined as an intentional offer or monetary or other benefit to another person, official, organisation or company in order to secure or attempt to secure a benefit in the performance of a duty, to obtain or retain business, or to obtain any other improper advantage in conducting the corporation's business.
- 2.2 Bribery can take different forms, such as cash payments, employment offers, bartering transactions, directing business to a particular individual or business, undue hospitality, providing services or other benefits to a person, organisation or company, or to those related to a particular person, organisation or company.
- 2.3 Facilitation or 'speed payments' can also be considered forms of bribery. Facilitation payments are typically small, unofficial payments made to secure or expedite a routine government action by a government official.

3. Who is covered by the policy?

- 3.1. This policy applies to all individuals working as employees of the Company (whether permanent, fixed-term or temporary), consultants, contractors, agents, sponsors, or any other person associated with our company. We require those providing services on our behalf to undertake their business without bribery or corruption.

4. The key principles

- 4.1. We are committed to conducting all of business in an honest and ethical manner. Key principles in our business are:

- (a) The Company will not pay nor accept bribes, kickbacks, or facilitation/speed payments (“corrupt payments”), either directly or via third parties, in any circumstances. Breaches or attempted breaches of this principle by an employee will be regarded as an act of gross misconduct and liable to disciplinary action under the Group’s Disciplinary and Grievance Policy and Procedure.
- (b) The Company will adopt clear policies and procedures proportionate to the size and risk profile of our business in order to counter corruption risk.

5. Ethical guidance

5.1. Policies and guidance cannot cover every circumstance. We therefore provide some guidance below to help you make decisions about appropriate business conduct. If you can answer yes to following quick questions, you might feel comfortable in proceeding.

- (a) Is the action legal?
- (b) Is it right? Is it honest?
- (c) Is the action consistent with the terms and spirit of this policy and our values as a business?
- (d) Does it avoid creating a sense of obligation?
- (e) Can I justify this to my manager, the Chief Internal Auditor (CIA), and to my family?
- (f) Would I feel comfortable if the action became public knowledge?

5.2. In any case of doubt, you should discuss the situation with the CIA.

B. Practical procedures

1. Responsible person

1.1 The Company will at all times have a nominated Director or Senior Manager responsible for overseeing and reporting on the implementation of this Policy. The Director/Senior Manager will be sufficiently senior to be fairly regarded as independently minded. He/ she will have direct access to the Board.

1.2 The current Senior Manager selected in this role is the Chief Internal Auditor.

- (a) The CIA will directly supervise and review the work of a Whistleblowing/Anti -Corruption Compliance Officer within the IA function.
- (b) The CIA will report on the implementation, workings and effectiveness of the policy on an annual basis, and any significant findings/investigations from reports will be reported to the Audit Committee of the Board of Directors in quarterly reports.
- (c) The CIA will also have direct access to the Chairman of the Audit Committee (non Executive Board director) for disclosure or discussion of any matters regarding this policy, or any reports made.

- 1.3 The responsibilities of the CIA in this role, shall include:
- (a) Ensuring wide dissemination, communication and training of the Anti Corruption Policy and Procedure amongst all stakeholders. Extra training will be provided where necessary.
 - (b) Ensuring any reports of bribery or corruption are appropriately recorded in the Incident Reporting/Whistleblowing register by the Whistleblowing/Anti-Corruption Officer within the IA function.
 - (c) Ensuring appropriate investigation of matters where necessary, or appropriate closure for any such reports.
- 1.4 The current CIA responsible for this role is Pravin Abraham, and can be contacted on phone number 0977 999190 or by email, Pravina@zambeef.co.zm. The Whistleblowing/Anti Corruption Officer may also be contacted using dedicated contact details as follows:
- Email address: tipoff@zambeef.co.zm
 - Text line: 0975 999900
 - Phone line: 0975 999009

2. **Review and report**

- 2.1 The responsible person will monitor, review and at least annually report on the effectiveness of and adherence to this policy, and the steps taken to implement it. The report will be submitted for approval to the Audit Committee of the Board of Directors, and the Chairman will include this review within his report to the Board of Directors.
- 2.2 The annual report and accounts of the Company will include an assessment of the workings and effectiveness of this Policy.

3. **Senior management information**

- 3.1 The Company's senior management-EXCO will be kept informed by the CIA of the steps taken to implement the policy, the conclusions of any reviews and any material findings arising out of the reports made under this policy on a regular basis.

4. **Employee conduct**

- 4.1 Employees are required to report any knowledge or suspicions of the request for, offering, giving or receiving of a corrupt payment. A failure to do so may be considered gross misconduct, and may be liable to disciplinary action under the Group's Disciplinary and Grievance Procedure.
- 4.2 No employee will suffer demotion, penalty or other adverse consequence for refusing to pay or accept a corrupt payment even if such a refusal may result in the Company losing business or failing to win a deal. If you believe that you have suffered any such treatment, you should inform the CIA immediately.
- 4.3 It is not acceptable for any Employee to:
- (a) give, promise to give, or offer, a payment, gift or hospitality with the expectation or hope that a business advantage will be received, or to reward a business advantage already given;
 - (b) give, promise to give, or offer, a payment, gift or hospitality to a government official, agent or representative to "facilitate" or expedite a routine procedure;

- (c) accept payment from a third party that you know or suspect is offered with the expectation that it will obtain a business advantage for them;
- (d) accept a gift or hospitality from a third party if you know or suspect that it is offered or provided with an expectation that a business advantage will be provided by us in return;
- (e) threaten or retaliate against another worker who has refused to commit a bribery offence or who has raised concerns under this policy; or
- (f) engage in any activity that might lead to a breach of this policy.

Further "red flags" that may indicate bribery or corruption are set out in Schedule 1.

5. Gifts and hospitality

Gifts

- 5.1 Employees are prohibited from accepting lavish gifts, incentives or gratuities or any gift where it could appear that their judgment would be compromised.
- 5.2 Employees may accept gifts which are up to the Kwacha equivalent of USD50 value for gifts, or USD500 for hospitality. There is an allowance of gift items above USD50 in value, as long as they are approved by the Head of Business Unit, justifiable, and appropriately logged in the Group gifts register maintained by the Company Secretary. All smaller value gifts must be reported to management through divisional gift registers, which are required to be open to review and inspection. Where a gift is offered but refused, this must also be reported to management. These records will be reviewed regularly by the CIA.
- 5.3 Employees may offer small business gifts (e.g. pens, diaries) to customers, suppliers and other persons. However all gifts must be reasonable, proportionate and authorised by management, and be under the Kwacha equivalent of USD50 in value, and reported in divisional gift registers. Management may issue corporate gifts but must add all such gifts to the Group gift register maintained by the Company Secretary, regardless of value. An estimate of the value of such corporate gifts should also be given.
- 5.4 The practice of gift giving varies between countries and regions and what may be normal and acceptable in one region may not be in another. The test to be applied is whether in all the circumstances the gift or hospitality is reasonable and justifiable. The intention behind the gift should always be considered. In the case of cash, only ExCO approved cash honorariums may be given where local custom includes such payments. These must be further added to the Group gift register.
- 5.5 Gifts should not be offered to, or accepted from, government officials or representatives, or politicians or political parties, without the prior approval of the CIA.

Hospitality

- 5.6 Employees may accept hospitality that is reasonable in the context of the business, for example accompanying a business associate to a local cultural or sporting event, business meal or conference would in most cases be acceptable.
- 5.7 Hospitality that is lavish or frequent may appear to influence independent judgment on behalf of the company. Where an invitation appears inappropriate, the offer must be declined or the true value of the hospitality paid.

- 5.8 All invitations for hospitality should be discussed with and authorised by management.
- 5.9 Employees may provide hospitality that is appropriate and reasonable in the context of the business. Employees must not provide hospitality without seeking approval and authority from management.
- 5.10 Applicable laws may prohibit the provision of hospitality, therefore all local laws and regulations should be checked in advance.

6. Facilitation payments and kickbacks

- 6.1 Employees will not make, and will not accept, facilitation payments or "kickbacks" of any kind. Facilitation payments are typically small, unofficial payments made to secure or expedite a routine government action by a government official. They are not commonly paid in the UK, but are common in some other jurisdictions in which we operate including Zambia.
- 6.2 If you are asked to make a payment on our behalf, you should always be mindful of what the payment is for and whether the amount requested is proportionate to the goods or services provided. You should always ask for a receipt which details the reason for the payment. If you have any suspicions, concerns or queries regarding a payment, you should raise these with the compliance manager.
- 6.3 Kickbacks are typically payments made in return for a business favour or advantage. All workers must avoid any activity that might lead to, or suggest, that a facilitation payment or kickback will be made or accepted by us.

7. Donations to organisations

- 7.1. No employee should make donations or contributions to any charity, political party or organisation without the express approval of senior management-EXCO. No donations should be made with the intention of gaining a business advantage.

8. Internal communication and training

- 8.1 The Company will communicate these principles and practical procedures to all employees, and will reflect this policy on its website and in the HR Staff Policies and Procedures.
- 8.2 Training will be provided to staff so that they are aware of this Policy, relevant anti-corruption legislation and their obligations under the policy and their contract of employment. Enhanced training will be provided to employees in particularly high risk roles.

9. Associates

- 9.1 The Company will conduct screening procedures on agents, advisers, contractors, intermediaries, and other representatives who supply material goods and services to it ("Associates") to protect the Company from the risk of it being associated with or benefiting from corrupt payments, and to ensure that the highest ethical standards are maintained.
- 9.2 The Company requires that associates are made aware of this policy and confirm that they will not participate in any transaction that will put it in breach of the policy, and that such associates have adequate procedures for preventing their own staff engaging in the giving or receiving of bribes, kickbacks, or facilitation/speed payments.

10. Internal record keeping

- 10.1. The Company shall make and keep books, records, and accounts that conform to the highest professional standards of accuracy and consistency and that, in reasonable detail, accurately and fairly reflect the company's transactions.

11. Auditing

- 11.1. The annual reports of the Company's internal and external auditors will include an assessment of the implementation of this policy.

C. Raising concerns

1. Key principles

- 1.1 Please also refer to the Incident Reporting Management and Whistleblowing Policy and Procedure in Schedule 2 for more information.
- 1.2 All employees of the Company are required to report any knowledge or suspicion of potential bribery to the CIA or Whistleblowing/Anti- Corruption Compliance Officer, at the earliest possible stage. We encourage such reports and abide by three principles in whistleblowing:
- (a) The Company welcomes whistle-blower reports and encourages staff and third parties to draw to its attention instances of corporate wrongdoing within the Zambeef group of companies (as defined below a "disclosure");
 - (b) The Company will appropriately investigate and act upon such disclosures.;
 - (c) The Company regards attempts to victimise or discriminate against a whistle-blower as potentially gross misconduct and liable to disciplinary action under the Group's Disciplinary and Grievance Procedure.

2. Making a disclosure

Employees

- 2.1 Disclosures concerning the conduct of the employee should be addressed to the CIA or the Whistleblowing/Anti- Corruption Compliance Officer. Disclosures should ideally be made in writing with the issues clearly and unambiguously set out. The whistle blower should identify themselves in the disclosure, where possible.
- 2.2 A disclosure is not intended to replace an employee's duty to keep their supervisors and managers properly informed on a day-to-day basis of matters which should be of concern to them or are relevant to the performance of their job. It is intended to be used where an employee has serious and justified doubts about the willingness or ability of that supervisor or manager to act appropriately upon such information.
- 2.3 A "Disclosure" is a concern raised in writing and made in good faith that discloses or demonstrates information that may evidence serious unethical or improper activity within the Company (or a company in its group) and its and their business or clinical practices.
- 2.4 A disclosure should be factual and not speculative and should contain as much specific information as possible to allow for a proper assessment of the nature and extent of the concerns.

- 2.5 A disclosure could concern malpractices and events which are taking place or are suspected or known to have taken place. Examples include:
- (a) abuse of authority;
 - (b) manipulation or falsification of company data or records;
 - (c) financial or compliance irregularities, including fraud, suspected fraud, bribery or corruption;
 - (d) criminal offence having an impact on the company or its reputation;
 - (e) deliberate violation of law or regulation;
 - (f) any other unethical behaviour.

2.6 This policy relies upon the good faith of staff and it should not be used as a mechanism for raising malicious or unfounded allegations against colleagues. Such practices may themselves be grounds for disciplinary proceedings.

Third parties

2.7 Disclosures (as defined above) may come from third parties, such as agents, advisers, contractors, or individuals who are unconnected with the Company. They must be passed to the CIA, or the Whistleblowing/Anti- Corruption Compliance Officer immediately.

3. Investigation

3.1 The CIA, with the assistance of the Whistleblowing/Anti- Corruption Compliance Officer, is responsible for reviewing all disclosures and will seek appropriate internal and external advice and assistance in investigating the facts set out in the disclosure. The Company would expect that any review would be normally completed within 30 business days of the receipt of the disclosure.

3.2 For any significant reports, that have been proven correct after investigation, the CIA will provide a short report to the Company's Audit Committee of the Board of Directors recommending appropriate further action – if any needed, or any actions already taken by the senior management-EXCO based on recommendations made to them, based on the discretion of the CIA. This may include disciplinary proceedings up to summary dismissal.

3.3 Where the disclosure concerns the conduct of the CIA, or the Whistleblowing/Anti- Corruption Compliance Officer, then the Chairman of the Audit Committee will conduct the review and will report to the Board of Directors.

3.4 The Company will not attempt to conceal the disclosure and will take appropriate disciplinary action in the event that such a disclosure is found to be proven and against any person who destroys or conceals evidence relevant to the disclosure.

4. Protection

4.1 The Company condemns any kind of discrimination, harassment or victimisation of a whistle blower. The Company will ensure that:

- (a) the identity of the whistle-blower is kept confidential and only disclosed on a need to know basis, unless the whistle blower has chosen to disclose their identity through alternative means of reporting such as directly to HR;

- (b) papers relating to a disclosure are filed carefully away and access to e mails and electronic files restricted by the use of an appropriate password so as to avoid the accidental disclosures of a whistle-blowers identity;
- (c) instances of victimisation of a whistle-blower are treated as a serious matter which may give rise to disciplinary action by the respective Head of Department/Supervisor against any person(s) causing or allowing such victimisation, or appropriate senior management-EXCO as recommended by the CIA.

4.2 These protections may be lost if a disclosure is not made in good faith.

5. Retention of documents

5.1 All disclosures and the documents supporting the disclosure and/or gathered during a review will be retained by the Whistleblowing/Anti-Corruption Officer, under the supervision of the CIA, for a minimum period of five years.

6. Communication and training

6.1 The Company will communicate its principles and practical procedures and its approach to their implementation to its employees and will publish this policy. The policy will also be communicated to relevant third parties.

6.2 Training will be provided to staff so that they are aware of the whistleblowing channels and their obligations under the policy and their contract of employment. Regular training will be provided to employees in particularly high risk roles.

7. Senior management review

7.1 The CIA shall provide a brief summary of the disclosures, their investigations and the resultant action on a regular basis to the Senior Management-EXCO and the Audit Committee of the company board.

7.2 The CIA will monitor, review and at least annually report on the effectiveness of and adherence to its principles, the practical procedures and the steps to implement them. The report will be submitted for approval by the Audit Committee of the Board of Directors, who will in turn request for appropriate approval by the full Board of Directors.

- (b) Members of staff who identify incidents should report incidents to their Business Unit Head, who is then responsible for reporting the incident to the Chief Internal Auditor.
- (c) In exceptional instances, where it may not be appropriate for a member of staff to report an incident to their Business Unit Head (e.g. because the incident or concern involves the Business Unit Head), the report must be made directly to an executive Director.

Business Unit Heads, and their subordinates who may handle incidents as delegated by them the Chief Executive Office from time to time. Under no circumstances are employees permitted to report incidents to external parties, such as the media or regulatory bodies.

Business Unit Head

- (a) Identification and reporting of incidents to the Internal Audit Department.
- (b) Ownership of actions to minimise impact of incident.
- (c) Matters of pilferage, break ins, overcharges, and other small value thefts/frauds can be investigated within the Business Unit Head's department with the assistance of the Security Department.

7. Whistle Blowing Procedure-for suspected malpractices/adverse activities

- 7.1 This section relates specifically to serious suspected malpractices or suspected incidents per section 4 above, involving members of staff or management.
- 7.2 Whistle blowing is the process by which staff or other individuals can raise a concern about suspected serious malpractice within an organisation.
- 7.3 A whistleblower is a person who raises a genuine concern in good faith relating to any of the above. If you have any genuine concerns related to suspected wrongdoing or danger affecting any of our activities (a whistleblowing concern) you should report it under this policy.
- 7.4 Full evidence is not necessary but there should be sufficient grounds for concern for any allegation made-eg eye witnessing of a suspected malpractice being conducted. It is similar to an early warning system and a means of enabling stakeholders to investigate further if something is going wrong in time to take corrective action.
- 7.5 Any disclosure made in good faith and substantially in accordance with any procedure prescribed herein for reporting is considered by management to be a protected disclosure. A staff member making such a disclosure is protected from being subjected to occupational damage on account of having made a protected disclosure.
- 7.6 Management will refrain from retaliating against, or tolerating victimisation of persons who report any suspected incidents as stated under section 4 above.
- 7.7 A staff member who suspects or reports suspected dishonest activity or such activity which he/she has witnessed should be given the opportunity to remain anonymous should he/she so require.
- 7.8 Allegations made by staff that are false and made with malicious intentions, should be discouraged by Managers. Where such malicious or false allegations are discovered, the person who made the allegations may be subject to disciplinary or management action.

8. Reporting under the Whistle-blowing Procedure

8.1 The Group recognises that staff members will be concerned about potential victimization, recrimination and even threats to personal safety as a result of disclosing dishonest activities. In view of this, the reporting line for whistle blowing is as follows, for a particular staff member:

- (a) First line of reporting to Immediate Supervisor (if this is a reasonable course given the nature of the findings and if the Supervisor is not involved in the malpractice or closely connected to any persons involved). Immediate Supervisor should ensure that the matter is then reported to Line Manager and H.O.D./Business Unit Line Manager, after this, the H.O.D./Business Unit Line Manager should inform the respective Director and CIA. Immediate Supervisor may choose to skip a line of reporting if this is a reasonable course of action.
- (b) If first line of reporting to Immediate Supervisor is not a reasonable course, the whistle blower may choose an appropriate level of authority in the line stated in the first bullet point above to make a report. **Reports can be made in writing, verbally and/or anonymously, if necessary. Reporting may be made direct to the Whistleblower Hotline/Email Manager. This Manager will have direct access to the highest levels of Management/Directors, and all reports/complaints will be logged. Appropriate actions will be undertaken, where possible and necessary.**

8.2 **Details of the Whistleblower Hotline/Email contact details are as follows:**

- **Email address: tipoff@zambeef.co.zm**
- **Text line: 0975 999900**
- **Phone line:0975 999900**

9. External disclosures

9.1 The aim of this policy is to provide an internal mechanism for reporting, investigating and remedying any wrongdoing in the workplace. In most cases you should not find it necessary to alert anyone externally.

9.2 The law recognises that in some circumstances it may be appropriate for you to report your concerns to an external body such as a regulator. It will very rarely, if ever, be appropriate to alert the media. We strongly encourage you to seek advice from the Company Secretary before reporting a concern to anyone external.

9.3 Whistleblowing concerns usually relate to the conduct of our staff, but they may sometimes relate to the actions of a third party, such as a customer, supplier or service provider, business partners, etc. The law allows you to raise a concern in good faith with a third party, where you reasonably believe it relates mainly to their actions or something that is legally their responsibility. However, we encourage you to report such concerns internally first. You should contact your or one of the other individuals set out in paragraph 6 for guidance, who should in turn liaise Company Secretary for authorization prior to making any external disclosures.

10. Investigation and outcome

10.1 Once you have raised a concern, we will carry out an initial assessment to determine the scope of any investigation. We will inform you of the outcome of our assessment. You may be required to attend additional meetings in order to provide further information.

- 10.2 In some cases we may appoint an investigator or team of investigators including staff with relevant experience of investigations or specialist knowledge of the subject matter. The investigator(s) may make recommendations for change to enable us to minimise the risk of future wrongdoing.
- 10.3 We will aim to keep you informed of the progress of the investigation and its likely timescale. However, sometimes the need for confidentiality may prevent us giving you specific details of the investigation or any disciplinary action taken as a result. You should treat any information about the investigation as confidential.
- 10.4 If we conclude that a whistleblower has made false allegations maliciously, in bad faith or with a view to personal gain, the whistleblower will be subject to disciplinary action.

11. If you are not satisfied

- 11.1 While we cannot always guarantee the outcome you are seeking, we will try to deal with your concern fairly and in an appropriate way. By using this policy you can help us to achieve this.
- 11.2 If you are not happy with the way in which your concern has been handled, you can raise it with one of the other key contacts in paragraph 6. Alternatively you may contact the Audit Committee of the Board.

Chapter 7: Social Media Policy

1. The Policy

- 1.1 The Zambeef Products PLC Social Media Policy is in place to minimise the risks to its business and assist employees in making appropriate decisions about the use of social media. It sets out the Company's rules and guidance in relation to employees' personal and business use of social media and social networking websites and is in addition to the Company's IT, Communication and Monitoring Policy. It outlines the circumstances in which the Company will monitor use of social media and the action which may be taken in respect of breaches of this policy.
- 1.2 This policy covers all employees, officers, consultants, contractors, interns, casual workers and agency workers.

2. Definitions

- 2.1 The term "social media" refers to all forms of social media and social networking websites that allow people to exchange information, ideas and opinions and to build online communities or networks. It includes but is not limited to:
- Social networking sites, such as Facebook, LinkedIn, WhatsApp and Tiktok
 - Investor forums, such as ADVFN
 - Blogs
 - Audio and video podcasts
 - 'Wikis', such as Wikipedia
 - Message boards
 - Comments on web-articles
 - Social bookmarking
 - Photo, document and video sharing websites, such as Instagram, Flickr, WhatsApp, Tiktok, and YouTube
 - Miniblogs, such as Twitter.
- 2.2 Social media websites are fast growing and ever changing. The list above refers to some well known examples of social media but is not exhaustive.

3. General Responsibilities

- 3.1 The Company understands and accepts that many employees engage in social networking activities. However, it is the Company's responsibility to ensure that its employees' use of social media does not damage its reputation or result in the disclosure of confidential information. The Company also has a responsibility to protect its employees from cyber-bullying (harassment caused by another employee's use of social media) and discrimination.
- 3.2 Employees are responsible for knowing and understanding this policy. When accessing social media websites, they must be aware that anything posted online is in the public domain and can remain so indefinitely. If the Company is identified or identifiable, any negative comments about the Company, individuals or other organisations may be attributed to the Company. As a result, the Company risks damage to its reputation and claims for liability. The Company may also be held

liable for breaches of confidentiality and privacy, which are damaging to individuals and organisations.

- 3.3 It is the responsibility of everyone to treat others with dignity and respect. This requirement applies equally to social networking. Abusive postings about colleagues and others are likely to amount to bullying and, where they relate to a protected characteristic (age, disability, gender reassignment, marriage and civil relationship, pregnancy and maternity, race, religion or belief, sex, and sexual orientation) may also amount to discrimination, for which the Company, as well as the employee, may be held liable.

4. Compliance and Breach of the Policy

- 4.1 Compliance with this policy is mandatory and forms part of the Terms and Conditions of Employment. Any use of social media, which is in breach of this policy, will be treated as misconduct and dealt with under the Company's Disciplinary Procedure. Serious cases will be treated as gross misconduct and may lead to dismissal. Social media should never be used in a way which breaches any of the Company's other policies.

5. Use of Social Media as an Employee and in an Official Capacity

- 5.1 Social media is a vital sales and marketing tool for the Company and the Company recognises the importance of the internet in shaping public thinking about the Company and its products. The Company also recognises the importance of its employees joining in and helping shape industry conversation and direction through interaction in social media.
- 5.2 Before using work-related social media employees must have read and understood this policy.
- 5.3 Only employees who have been given express permission are permitted to access and post material on a social media website in the Company's name and on its behalf. There must be a genuine business case for such access and posting and the employee must have obtained prior authorisation from their manager.

6. Rules Governing All Use of Social Media

- 6.1 When using social media and social networking sites, employees are required to comply with the following rules.

Employees **must not**:

- a) Express opinions on behalf of the Company, subject to paragraph 5 above;
- b) Comment on the Company's position on any issue (including but not limited to its strategies, policies, plans, processes, history, appointments, finances, acquisitions, recruitment, pay and benefits);
- c) Disclose commercially sensitive, private or confidential information including but not limited to personal information about client details, financial and commercially sensitive information about the Company or its clients, future business plans, trade secrets and intellectual property. Confidential information can include photos and videos. Employees are required to comply with any data protection policy that may be in place in relation to all confidential information, which may include but is not limited to those items described above;
- d) Generally damage the Company's business interests or reputation, even indirectly, including making any comments that could reasonably be expected to embarrass or compromise the Company or any of its stakeholders.

Employees **must**:

- e) If disclosing their affiliation with the Company on their profile or in any social media postings, state that their views do not represent those of the Company, unless authorised to speak on the Company's behalf as set out in paragraph 5 above;
- f) Alert their manager if they become aware of any breach of this policy.

7. Listed Company - Social Media and Price Sensitive Information

- 7.1 All employees must be conscious that they work within a company which is quoted on the AIM market of the London Stock Exchange plc and on the Lusaka Securities Exchange and, as a result, they may become aware of information which may be "price sensitive", that is, information which, if made public, would be likely to have a significant effect on the price of shares in the Company.
- 7.2 The AIM Rules for Companies ("**AIM Rules**") provide that a company must make an announcement to the public via an approved Regulatory Information Service ("**RIS**") without delay of any developments which are not public knowledge and which may be "price sensitive". This may include matters concerning a change in the company's financial condition, sphere of activity, performance of business or its expectation of its performance.
- 7.3 Further, the LuSE Listing Rules require that with the exception of trading statements the Company must, without delay, unless the information is kept confidential for a limited period of time, release an announcement providing details of any development(s) in the Company's sphere of activity that may lead to material movements of the reference price of the Company's listed securities.
- 7.4 Where the Company is required to make a RIS notification, the notification must be made no later than the information is published elsewhere. The fact that information released through other outlets is or may become publically available is not a substitute for making a notification under the AIM Rules. Consequently the requirement to make a notification under the AIM Rules will not be satisfied by disclosure via social media and the Company must, in each case, make an RIS announcement.
- 7.5 All regulatory information must be disclosed to the market in a fair and timely manner and the formal channels of disclosure must be adhered to. A company's securities can be suspended from trading where there has been an unusual share price movement because of an inequality of information provided to the market. The London Stock Exchange plc can investigate and take such disciplinary action as it considers appropriate in such an instance.
- 7.6 It is also an offence under the Market Abuse Regulation (596/2014) ("**MAR**") to unlawfully disclose such information, and premature or selective disclosures or disclosures designed to cause volatility in the Company's share price (e.g. a leak of confidential information), which may constitute market abuse under MAR, falling under the regulation of the Financial Conduct Authority, who may impose penalties (including unlimited fines) on both the Company and its directors for market abuse.
- 7.7 This policy prohibits the disclosure of price sensitive information on social media. Disclosure of price sensitive information may also constitute a criminal offence. If anyone has any queries whether information they are aware of may, or may not be, "price sensitive" they should discuss this with a Director.

8. Monitoring the use of Company Facilities

- 8.1 The Company reserves the right to monitor employees' use of its facilities to access social media and social networking websites.

Chapter 8: Related Party Transactions Policy

1. Policy

- 1.1 The Board of Directors, Management and Employees are committed to establishing a transparent environment in addressing the matter of related party transactions for the Group. It is the Company's aim to demonstrate to relevant stakeholders that any related party transactions that may be conducted are done without favour to particular related parties, and in the corporate interests of the Group.
- 1.2 This policy is governed by the Zambian Companies Act sections 107-110, International Financial Reporting Standards (IFRS) and the LuSE Listing. This policy is designed to supplement, but in no way overrule, the provisions of the Company's AIM Rules Compliance Policy, LuSE Compliance Policy, the Zambian Companies Act or the Articles.

2. Procedures

- 2.1 Disclosures of related party relationships:
 - 2.1.1 The Directors and Persons Discharging Managerial Responsibilities (PDMR's), of the Company, known collectively as the "Directors" for the purposes of this Chapter, acknowledge that they have a duty and obligation to disclose to the Board, via the Company Secretary's office, related party relationships with any Group companies.
 - 2.1.2 At least once a year before the Financial Year end, the Directors are required to make a disclosure of related party interests, using the prescribed form distributed by the Company Secretary, to comply with requirements of s.107-112 of the Companies Act and IFRS disclosure requirements.
 - 2.1.3 These disclosures must be tabled with the Board for formal approval of conflicts of interest per section 107 (3) (b) of the Companies Act.
- 2.2 Non participation in business discussions and meetings by related party directors:
 - 2.2.1 As provided in the Code of Ethics, where there is a conflict of interest, related party directors are required to refrain from participating and/or voting in meetings and discussions where there is a related party negotiating terms and conditions with the Group.

In addition, please see section below regarding consultation with Nominated Adviser as soon as any potential related party transaction is in contemplation.
 - 2.2.2 Appropriate independent directors or senior managers may attend such meetings and discussions on behalf of the company.
- 2.3 Pre-review and Approval of related party transactions
 - 2.3.1 Advice should be sought from the Company's Nominated Adviser as soon as any potential related party transaction is in contemplation – please refer to the Company's AIM Rules Compliance Policy and the LuSE Compliance Policy for further information.
- 2.4 Post Review procedures
 - 2.4.1 Please refer to the Terms of Reference for the Audit and Risk Committee.

3. LuSE Listing Rules Related Party Transactions Procedures

3.1 For purposes of the LuSE Listing Rules, a “related party transaction” means a transaction, as contemplated by section 9 of the LuSE Listing Rules, or any variation or novation of an existing agreement, between an issuer, or any of its subsidiaries, and a related party. For purposes of section 9 of the LuSE Listing Rules and for the avoidance of doubt, a transaction principally refers to acquisitions and disposals, by issuers and their subsidiaries.

3.2 “related party” means:

- (a) a material shareholder (i.e. any person who is, or within the 12 months preceding the date of the transaction was, entitled to exercise or control the exercise of 10% or more of the votes able to be cast on all or substantially all matters at the general meetings of the Company, or any other company that is its subsidiary or holding company or is a fellow subsidiary of its holding company);
- (b) any person that is, or within the 12 months before the date of the transaction, was a Director of the Group. For the purpose of this definition, a Director includes a person that is, or within the 12 months preceding the date of the transaction, was not a Director, but in accordance with whose directions or instructions the Directors are or were accustomed to act;
- (c) any advisor to the Company that has, or within the 12 months preceding the date of the transaction had, a beneficial interest, whether direct or indirect, in the Group;
- (d) any person that is, or within the 12 months before the date of the transaction was part of senior management-EXCO of the Company;
- (e) the controlling shareholder of the persons in (d) above;
- (f) an associate of the persons in paragraph (a) to (e) above.

Procedures for Related Party Transactions

3.3 The Company must consider the categorisation at an early stage of any transaction that the Company is considering. If the Company proposes to enter into a transaction which could be a transaction with a related party and there is any doubt as to whether or to what extent the relevant provisions of the LuSE Listing Rules apply, the Company must consult its local counsel and LuSE at an early stage.

3.4 The categorisation of a proposed transaction is determined by assessing its relative size to that of the market capitalisation of the Company. The different categories of transactions include:

- (a) Category 1: Transactions where any percentage ratio is 5% or more but each is less than 25%;
- (b) Category 2: Transactions where any percentage ratio is 25% or more or if the total consideration is not subject to any maximum; and
- (c) Reverse take-over: An acquisition by a listed company of a business, an unlisted company or assets where any percentage ratio is 100% or more, or which would result in a fundamental change in the business, or in a change in board or voting control of the listed company, in which case this will be considered a new listing.

3.5 In circumstances where:

- (a) either of the above calculations produces an anomalous result; and/or
- (b) the LuSE believes that any of the transaction components are not included at fair value (taking account of the particular circumstances of the transaction); and/or
- (c) the categorisation calculations are inappropriate to the sphere of activity of the issuer;

the LuSE reserves the right to request a fairness opinion on transaction values, take into account other ratios or use any other relevant indicators of size to determine the categorisation.

3.6 Where the Company or any of its subsidiaries, proposes to enter into a related party transaction, or if LuSE determines that a transaction is a related party transaction, the Company may be required to:

3.6.1 make an announcement containing:

- (a) the information specified in paragraph 9.15 of the LuSE Listing Rules;
- (b) the name of the related party concerned; and
- (c) details of the nature and extent of the interest of the related party in the transaction.

3.6.2 submit the agreement relating to the transaction to LuSE;

3.6.3 send a circular to its shareholders containing the information required by paragraph 10.9 of the LuSE Listing Rules;

3.6.4 obtain the approval, by resolution, of its shareholders either prior to the transaction being entered into or, if it is expressed to be conditional on such approval, prior to completion of the transaction;

3.6.5 include in the special or ordinary resolution to approve or give effect to the transaction, a condition that the validity, for the purposes of the LuSE Listing Rules, of the resolution will be subject to a simple majority of the votes of shareholders, other than the related party and its associates, being cast in favour of the resolution; and

3.7 include a statement by the Board of Directors confirming whether the transaction is fair insofar as the shareholders of the issuer are concerned and that the Board of Directors have been so advised by an independent expert acceptable to LuSE. The Board of Directors must obtain a fairness opinion (which must be included in the circular) prepared in accordance with Schedule 5 of the LuSE Listing Rules.

Small Related Party Transactions

3.8 In the case of of a transaction with a related party where one or both of the percentage ratios are less than or equal to 5%, but exceed 0.25%, the usual requirements for a transaction with a related party do not apply and, instead, the issuer must, prior to completing the transaction:

- (a) inform the LuSE in writing of the details of the proposed transaction;
- (b) provide the LuSE with written confirmation from an independent professional expert acceptable to the LuSE that the terms of the proposed transaction with the related party are fair as far as the shareholders of the issuer are concerned;
- (c) publish details of the proposed transaction in accordance with paragraph 9.15 of the listing rules including a statement that paragraph 10.7 (b) of the listing rules has been complied

with, that the transaction has been declared to be fair, and that the fairness opinion will lie for inspection at the issuer's registered office for a period of 28 days from the date of announcement; and

- (d) comply with the usual requirements regarding transactions with related parties as per paragraph 10.4 of the listing rules, if the independent professional expert states that the transaction is not fair.

Transactions not regarded as Related Party Transactions

3.9 A transaction will not be regarded as a related party transaction if any of the following situations apply:

- (a) the issuer does not have any equity securities listed;
- (b) the issuer is an external company with a secondary listing on the Lusaka Securities Exchange;
- (c) the transaction is one where both of the percentage ratio is equal to or less than 0.25%.

Aggregation
